Rahaf Mohammed Alfaifi

Computer Science Graduate | Business Intelligence & Information Technology

+966 532 398 288 rahaf15rf@gmail.com Rahaf Rahaf Alfaifi Saudi Arabia

PROFESSIONAL PROFILE

Computer Science graduate with a Bachelor's degree from King Khalid University. Possesses knowledge in data analysis, cybersecurity, and information technology, supported by professional certifications and hands-on experience in analytics, technical support, and data management. Demonstrates strong analytical, problem-solving, and teamwork skills, with the ability to contribute effectively to IT, data analytics, cybersecurity, and technology-driven administrative roles.

PROFESSIONAL EXPERIENCE

Deanship of E-Learning, King Khalid University | Saudi Arabia
Data Entry and Analyst Volunteer | April 2026

Key Achievements
- Supported data-driven decision-making through analysis of engagement metrics.
- Contributed to improving e-learning quality and performance.

Core Responsibilities
- Evaluated user engagement metrics and monitored key performance indicators.
- Analyzed and interpreted data to identify trends and actionable insights.
- Assisted in improving data quality and enhancing analytical processes.
- Prepared reports and data visualizations to support informed decisions.

Ministry of Commerce | Aseer, Saudi Arabia
Data Entry Volunteer | March 2026

Key Achievements
- Improved database accuracy and enhanced documentation processes.
- Supported efficient management of administrative records.

Core Responsibilities
- Ensured data consistency and followed established documentation procedures.
- Organized documentation and maintained records to support daily operations.
- Entered, updated, and verified data accurately to maintain reliable records.
- Assisted in preparing reports and handling various administrative tasks.

Social Development Association | Saudi Arabia
IT Support Volunteer | December 2025

Key Achievements
- Contributed to maintaining system stability and operational efficiency.
- Assisted in resolving technical issues and supporting users.

Core Responsibilities
- Assisted users with troubleshooting and resolving technical inquiries promptly.
- Provided technical support for hardware, software, and system issues.
- Supported IT activities to maintain service continuity and efficiency.
- Monitored system performance to ensure stable daily operations.

ACADEMIC BACKGROUND

King Khalid University | Saudi Arabia
Bachelor of Computer Science | GPA: 4.18 / 5 | 2023

CERTIFICATIONS & COURSES

- Data Analysis and Visualization (Tableau) | Tuwaiq Academy | March 2026.
- AWS Associate Developer | Learning Space | October 2024.
- IBM Cybersecurity Analyst Professional Certificate | IBM | January 2023.
- Summarizing Data Using IBM Granite | Simplilearn | June 2026.
- Digital Analytics Track | King Khalid University | June 2025 - September 2025.
- Get Started with SQL Analytics and BI on Databricks | February 2025 - April 2025.
- Power BI 101 & 102 | Satr & Tuwaiq Academy | April 2025.
- Python for Data Science, AI & Development | IBM | October 2024.
- Artificial Intelligence Concepts and Advanced Applications | IBM SkillsBuild | February 2025 - April 2025.
- Principles of Artificial Intelligence | Microsoft | February 2025 - April 2025.
- Operating Systems: Overview | IBM | February 2025 - April 2025.

PROJECTS

- Sentiment Analysis System for Student Satisfaction:
  - Collaborated within a team environment while following structured documentation practices.
  - Developed a machine learning-based system using Python to classify student feedback.
  - Applied data analysis techniques to improve accuracy and generate insights.
- Stock Market Performance Analysis Dashboard | Tableau:
  - Designed interactive dashboard to analyze stock market trends and price movements.
  - Created visualizations including line charts, bar charts, scatter plots, and KPI summaries.
  - Performed exploratory data analysis using simulated financial datasets and market insights.
  - Developed interactive Tableau dashboard to present trends and analytical insights effectively.

SKILLS

Data Analytics Skills:
- Data Analysis
- Data Visualization
- Power BI
- SQL Analytics

Programming Skills:
- Python
- SQL
- Java
- C++

Cybersecurity & IT Skills:
- Risk Management
- Security Compliance
- IT Support
- AWS Cloud Services

Technical & Professional Skills:
- Microsoft Office
- Problem Solving
- Communication Skills
- Time Management

LANGUAGES

- Arabic
- English
